Aevo Consulting Group

At Aevo Consulting Group, we believe in excellence and this value underpins all that we do. Our core focus is providing specialist financial-modelling services. We've helped JSE-listed companies, parastatals and local & national government departments make informed decisions with flexible and robust tools.

With a multi-disciplinary advisory team in place, a long history of successful projects and close links to a range of strategic network partners, our offerings are diversifying more widely into the management consulting arena. Whatever we do, we aim to deliver professional, results-driven advisory services that respond to client needs.

Financial Modelling Approach

Our strategic financial models simulates business and financial planning processes as illustrated below. It differentiates between the normal and operational processes and expansionary processes over a N-year horizon with the objective of synchronising the business view both in the current year as well as over time, providing a base for developing scenarios.
